CORE COMPETENCIES

Digital Systems — custom web & application platforms (React/Next.js), secure portals & dashboards, booking/scheduling/invoicing systems, accessibility-minded front ends (Section 508 / WCAG 2.1 AA).

Automation — business-process & workflow automation (n8n), API & systems integration, CRM automation, scheduled data pipelines.

AI Solutions — AI voice agents, intelligent document processing, LLM-powered workflows, decision-support tooling.

Data & Documents — document & records management, contract & renewal tracking, digital forms & intake, reporting dashboards.

Mission Support — solutions architecture, rapid prototyping, sustainment support, and digital communications — surge capacity taskable by scope, as prime or subcontractor.

PAST PERFORMANCE — commercial; references available on request

Newly registered for federal contracting, with a commercial delivery record of production systems in daily use.

Operations platform — unified client management, invoicing, and scheduling into one system that replaced a stack of disconnected tools.

Secure digital vault — access-controlled document & contract management for a safe-deposit operation, with renewal tracking and an auditable holder record.

Field-service routing — route-optimization and dispatch automation; more jobs completed per day.

AI voice agent system — multi-line intake and routing across several service industries, around the clock.

DIFFERENTIATORS

Modern stack. Current technology — React/Next.js, modern cloud, applied AI — with maintained code and no legacy overhead.

Agile delivery. A lean technical team backed by a network of vetted specialists, deployable by project scope.

Standards-aware. Built to Section 508 / WCAG 2.1 AA, with sound records-management and data-handling practices.

U.S.-based. 100% U.S. delivery, deployable to any agency or prime — no geographic constraint.

WAYS TO ENGAGE

Micro-purchase — direct award on a Government Purchase Card.

Simplified acquisition — task orders within the Simplified Acquisition Threshold.

Subcontracting & teaming — as a sub or teaming partner on a prime's vehicle.

No set-aside designations held at this time; available for full-and-open, Simplified Acquisition, and subcontract/teaming opportunities.
